### ABOUT ME

I am Kavindu Bogahawatte, an IT student currently studying at SLIIT City Uni. I am passionate about creating websites, mobile applications, and admin panels that solve real-world problems. Skilled in PHP, MySQL, and Android development, I focus on building clean and user-friendly solutions. I am a fast learner, a good team player, and eager to apply my knowledge to real projects while continuing to grow as a software developer.

### PROJECTS

#### Hire Us - Job Finder Platform (Web & Mobile) 2025

- A complete job platform for connecting workers and employers.
- Includes mobile apps for workers to register, find jobs, apply (3 per day limit), view job history, and manage profiles.
- Employers can post jobs, view applicants, and hire workers through the web-based admin panel with order and applicant management features.

#### Authentication & Security Modules 2025

- Secure login and password reset system for websites and apps.
- Includes token-based email reset, OTP verification, and password hashing for safe authentication

#### FOL Clothing - (Web & Mobile) 2024-2025

- A complete e-commerce solution with a website and Android app.
- Features product browsing, search, cart management, order tracking, email notifications, and admin panel for order management and report printing.

#### CPSHareTXT - File & Notes Sharing Website 2024

- A simple web platform for sharing notes and files with friends.
- Focused on clean UI, fast uploads, and easy access for users.
